

# Thank you for Saving Water !!

In order to use limited water resources as long as possible, please cooperate in [further water-saving](#).

## Face/hand-wash

Do not leave the water running. Open and close the faucet frequently.

## Car wash

Put water in a bucket to save about 60 liters.

## Shower

If you leave the water running for 3 minutes, the water volume becomes about 35 liters.

## Kitchen

If you leave the water running for 5 minutes to wash dishes, etc., you'll eventually use no less than 60 liters.

## Tooth brushing

Put water in a cup to save about 5 liters.

## Bath

Reuse a half of the remaining water for washing and cleaning to save about 90 liters.
